Hearing and Vision Screening coming soon!

Students in Pre-K, 1st, and 4th grades will have their hearing and vision screened by Baltimore County Department of Health during the month of March. Any students new to the county or students that missed screening during a past screening year, will also be evaluated.

If your child is not in Pre-K, 1st, or 4th grade and you have concerns about your child’s vision or hearing, please call me in the Health Suite at 410-666-8376 by Wednesday, January 22nd to request that they be screened this year. Please also let me know by January 22nd if you DO NOT want your child in any grade to be screened.
Health Physicals, Dental Forms, Changes in health status, etc.

Please be sure the health suite has updated copies of your child’s latest physical or dental visit. (Let me know if you need blank forms) Please also contact me if there are any changes or additions to your child’s health status (ex. glasses, immunizations, new medications or new health concerns) so that we can keep his/her health record accurate and up to date. Thank you!
